Don:

Here was our map. I'd think there are sufficient commercial loading zones in the immediate vicinity.

If these petitions are going out, we might want to have the Council office find out where this and other petitions are being sent, so that we can meet with the businesses to explain why we want the loading zones removed---to ADD PARKING FOR THEIR CUSTOMERS!!!

**Subject:** Melrose BID Requests - Green Curb removal

Good afternoon,

Attached pls find the petition for the green curb removal on east side of Martel Ave south of Melrose. Please note that your study doesn't mention the commercial yellow curb zone on that block (see attached 2009 picture), probably because the sign is missing & the curb is not currently painted yellow. Do you want to include the removal of this yellow commercial loading zone? If so, let me know so I can modify our files and resend the modified petition form. Any questions/comments, please let me know.

Sincerely,

Hui M. Huang

Thank you Hui...

We are anxious to get to work on this. In addition to myself, the Melrose BID's technical project manager will be Jeff Jacobberger, who is copied above. He will be following-up on the technical specifics. He'll get back to both of us as soon as possible. Thank you.
